STAR News UPDATE

Happy and Healthy New Year, in 2021! Thank you to all parents that have supported their students during this transition to online learning. Please know that your support and patience during this time is so appreciated by staff and it is a shining example for our students. I am very proud of the excellent job that our students and staff have done this week in adjusting to the new and changing mode of learning. I am also so appreciative of our board's IT people who were working very hard in getting all the technology prepared for deployment to our students. There were over 9, 000 requests for technology devices in our board.

The Ministry of Education along with the Southwestern Public Health Units announced a continued closure of schools until January 25th. I know that this presents many challenges for our families. Please be aware that the staff are working to adjust their teaching to the online platform which presents some challenges, but we thank our students and families for their support and patience to ensure our students are successful.

Thank you again to our students, our parents and our staff. Your commitment and dedication to help our students grow is appreciated and we are grateful for the support!

Mrs. C. Kramer
